**Versatile.
Agile. Lethal.**

MULTI-ROLE DRONE FOR ISR AND LOITERING ORDNANCE

Introducing the **BarB-X** Loitering Drone, BlueBird's cutting-edge FPV platform designed for real-time reconnaissance, intelligence gathering, and precision strike missions. **BarB-X** delivers unmatched operational flexibility in dynamic combat environments. Whether deployed for surveillance or armed engagements, this high-speed, highly maneuverable drone provides superior situational awareness along with **reliable safe-and-arm** and lethal capabilities, ensuring mission success with precision and efficiency.

BAR-B KEY FEATURES

- ✘ **Simple Launch** – From Backpack to Air in Minutes, Quick-launch capability for unmatched flexibility.
- ✘ **Multi-Mission** – Designed for ISR and precision loitering strikes.
- ✘ **FPV Control** – Real-time First-Person-View for enhanced situational awareness.
- ✘ **Lethal Capability** – Configurable warhead for effective target engagement.
- ✘ **Compact & Lightweight** – Easy transport and rapid deployment.
- ✘ **Stealth & Lethality** – Low signature with a 5 meters fragmentation spread.

SPECIFICATIONS

✈ MTOW
UP TO **2 Kg**

📶 COMM RANGE
UP TO **10 Km**

🎯 STRIKE PRECISION
FPV ATTACK

🕒 ENDURANCE
UP TO **25 Min**

💣 WARHAED
UP TO **600 gr**

🚀 ATTACK SPEED
UP TO **150 Km/h**

WARHEAD

Proximity Detonation

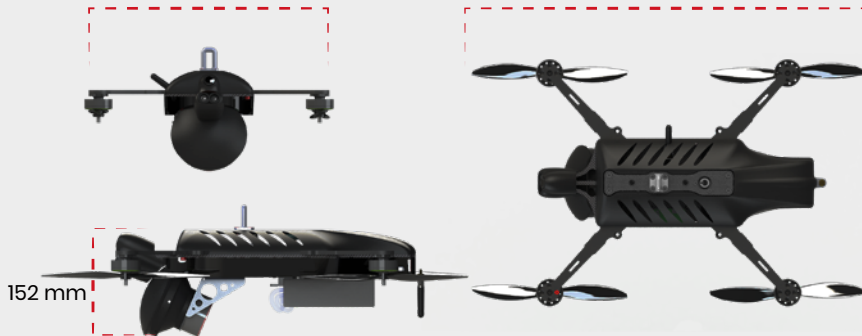

🎯 ANTI PERSONNEL
/ LIGHT VEHICLE

DIMENSIONS

Folded 120mm / 322mm

380 mm

OPTIMIZED WARHEAD CONE DESIGN

Designed for efficient fragmentation spread and effective collateral damage
